

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

* * * * *

In the Matter of:

PETITION OF COLUMBIA GAS OF)	
KENTUCKY, INC., FOR AUTHORITY)	
TO ADJUST RATES IN ACCORDANCE)	CASE NO. 8281-F
WITH THE PURCHASED GAS ADJUST-)	
MENT PROCEDURE)	

O R D E R

On December 30, 1981, this Commission issued its final Order in Case No. 8281 approving certain adjustments in the rates of Columbia Gas of Kentucky, Inc., ("Columbia") and providing under certain conditions for refunds.

On April 12, 1982, Columbia notified the Commission that it has received a refund in the amount of \$234,822 from one of its suppliers, Columbia Gas Transmission Corporation ("Transmission") and that the refund is due to its customers. This refund is the result of refunds received from Transmission, related to Louisiana First Use Tax refund and approval of Stipulation and Agreement of FERC Docket No. RP80-146.

Columbia has calculated the amount owed each high pressure customer based upon individual customer usage during the refund calculation period. The total refund due high pressure customers amounts to \$121,948 and will, upon approval, be refunded by check. The balance of the refund in the amount of \$112,874 would be refunded to approximately 113,100 low pressure residential and commercial customers by bill credit over a 4-month period.

The estimated refund factor applicable to low pressure customers is \$0.0565 per Mcf.

After reviewing this evidence of record and being advised, the Commission is of the opinion and finds that:

(1) The refund due high pressure customers is \$121,948 and should be refunded by check, and that the balance of the refund in the amount of \$112,874 should be refunded to approximately 113,100 low pressure residential and commercial customers by bill credits over a 4-month period.

(2) The refund factor for low pressure customers should be \$0.0565 per Mcf and should be adjusted, when necessary to assure proper refunds to its customers.

(3) The refund should begin with meter readings taken on and after May 1, 1982, and should remain in effect for 4-months or until such time as the full amount, plus interest has been returned to its customers.

(4) Columbia should refund the amounts reported in its application plus interest at a rate equal to the average of the "3-month Commercial Paper Rate" for the immediately preceding 12-month period less $\frac{1}{2}$ of 1 percent to cover the costs of refunding. These monthly rates are reported in both the Federal Reserve Bulletin and the Federal Reserve Statistical Release.

IT IS THEREFORE ORDERED that Columbia shall refund by check \$121,948 to its high pressure customers and that \$112,874 shall be refunded to its low pressure customers by application of a credit

factor of \$0.0565 per Mcf of sales to its customers' bills for a period of 4-months beginning with meter readings taken on and after May 1, 1982, and remain in effect until such time as necessary so that the refund will, as nearly as possible reflect the exact amount. The refund factor will terminate at such period of time that the refundable amount equals the refund herein reported plus interest.

IT IS FURTHER ORDERED that upon completion of the refund directed herein, Columbia shall file with the Commission a statement of the monies refunded to its customers.

IT IS FURTHER ORDERED that Columbia shall notify the Commission upon completion of the record authorized herein and the amount of the refund to all customers served.

IT IS FURTHER ORDERED that the information furnished this Commission by Columbia on April 12, 1982, constitutes full compliance with the Commission's requirements and orders in Case No. 8281 and any other information ordinarily required to be filed under the Commission's regulations is hereby waived.

Done at Frankfort, Kentucky, this 23rd day of April, 1982.
